Book online: theIAM.org/UKConference

The IAM UK Chapter Conference will focus on the diversity of asset management across different sectors and how the profession embeds common good practices across different asset types, operating contexts and environments

With this as the core, we will also explore with delegates some of the 'Mega Trends' that we see emerging in relation to the wider influence of asset management. These include:

- ESG capital movement
- purpose led organisations
- asset management as an integration of professionals
- localisation vs globalisation
- circularity
- and more...

About the IAM

The Institute of Asset Management (IAM) is the international professional body for asset management professionals. We develop knowledge and best practice, and generate awareness of the benefits of the discipline for individuals, organisations and wider society. We are a not-for-profit with a global network of individuals in over 65 countries and 51 business sectors.

What is asset management?

Asset management is the coordinated activity of an organisation to realise value from assets; where assets are classed as an item, thing or entity that has potential or actual value to an organisation.

Asset management is relevant to all types of organisation – and there is growing evidence from around the world that effective asset management can improve an organisation's reputation and its ability to: operate safely; meet regulatory and statutory obligations; evaluate future business strategies; and reduce the cost of managing assets over their lifecycle.

Read on to find out what you can see at the IAM UK Chapter Conference
2021...

08:00 - Registration, refreshments and networking

09:30 - 10:45
GMT

Welcome to the start
of the conference

Reliability Improvement Journey in
the Steel Industry

Richard Sidebottom
Tata Steel

Refreshments and networking

11:15 - 12:50
GMT

Asset Management - the Integrator

This session shows how the concepts and practices of asset management are providing the navigational clarity, the alignment and integration of the whole organisation, not just the management system. Asset management, if introduced in the right way, can be an effective integrator of all that needs to be done and all that is worth doing.

John Woodhouse (TWPL)

Asset Management, Climate
Resilience, ESG, and Resilience
Intelligence!

Michael Bilney (Cardno)

A New Era for ESG Decision Analytics

John Harvey (Copperleaf)

Naval Base Clyde - Our Journey so Far,
Where Next?

This session will share the MOD journey so far, following an improvements roadmap based on the outcome of a Maturity Review. See the key learnings we've gained, and then ask the questions 'where next?'. Help us share our forward plan.

John Hanlon, Alan Black (UK
Ministry of Defence)

Lunch and networking

13:50 - 15:25
GMT

Introduction to Asset Management
Decision-Making

Iolo Hughes (Copperleaf)

Data Analytics Supporting the
Adoption of the ESG Framework

Michael Mouldsdales, Angela
Johnston (Arcadis Gen)

Integrated Management Systems and
Asset Management: Experiences from
the Integrators

This workshop explores some of the key findings of the research on integrated management systems (IMS) and asset management, with representatives from three organisations that have implemented IMSs in airport, gas and water sectors. It will also explore the key learnings and invite Q&A from attendees.

Ark Wingrove (Kompas
Development) Thomas Smith
(University of Wisconsin),
Southampton Airport, GNI, Irish
Water

The Coast is Clear: Challenges and
Success Stories in Global
Harmonisation of Marine Aids to
Navigation

**Sarah Robinson (Hawkshill
Consulting Ltd)**

The Decisive Decade

*Our world is stressed. We are in the midst of a
global climate emergency, health pandemic and
economic downturn - we will explore how the
asset management profession can ensure these
stresses are reduced or countered through
making the right decision at a societal, rather
than organisational level.*

Integrating Sustainability into the DNA of
your Asset Management

**Craig Mauelshagen, Russell Skae
(Business Modelling Associates)**

It Isn't Just Changing, It's Change

**James Dowle (PA Consulting),
Ben Straw (Network Rail),
Andrew Ellis (High Speed 1)**

**Tomas Dryburdh (Arcadis), Andy
Watts (Institute of Asset
Management)**

Lunch and networking

13:25 - 15:00
GMT

Development of a Target Asset
Management Model for Network Rail
Structures

Cristof Ranocchi, Tim Kay (Amey)

Digital and Dynamic Asset
Management Plans: A Collaborative
Journey

**Dean Beamish (Binnies), Dale
Gibbons (Environmental Agency)**

How Do We Integrate Asset Data from
Multiple Organisations to Create a Truly
System View of Infrastructure?

*This IAM Patrons Group workshop will present
case study examples from UK organisations
looking to answer the above question, and then
explore what more can be done to look outside
our asset bases to other dependent assets in the
wider regional system.*

Improving Asset Management and
Practices for Railway Track
Infrastructure Through the Adoption of
Digital Technologies

**Nikhil Pillai, Clive Roberts, Jou-Yui
Shih (University of Birmingham)**

The logo features three stylized mountain peaks in red, blue, and black above the text "Asset Management Excellence Awards".

Asset
Management
Excellence Awards

2021

The Asset Management Excellence Awards acknowledge and celebrate the outstanding work done by asset management professionals, organisations and teams across the world.

The past year continues to present new opportunities and encourage us to work in new and different ways – and to reflect the changing nature of so many of our working lives, we have an updated range of award categories.

This year the Awards are being hosted by the IAM UK Chapter Conference 2021 - book to attend the Awards Ceremony and Dinner alongside your conference ticket. This is a chance to meet the winners and network with international, leading asset management professionals!
