

# IAM Global Conference 2022

15-16 June

## How increasing asset management maturity yields greater benefits in the changing world

The IAM Virtual Global Conference will focus on how *maturity* yields asset management benefits at all levels of the maturity scale. We will consider how the *Circular Economy* is both a driver and outcome of asset management, along with other megatrends, and share real examples of benefit realization from each of these at all levels of adoption.

Speakers will be sourced through a call for speakers with a selection panel ensuring we present a diverse range of views, thought leadership and best practice creating a unique learning and sharing experience for delegates.

This represents a great opportunity to showcase and share your asset management experience and connect with the global asset management community. Whether you are writing a paper, completing a project or have an interesting case study to share, you could be a suitable speaker for the conference.

**DEADLINE: 31 March 2022**
