

IAM UK Excellence Awards Submission Guidelines

The IAM UK Excellence Awards acknowledge and celebrate the outstanding work done by asset management professionals, organisations and teams from across the UK.

Commitment, quality and foresight are vital to the success of asset management - along with innovation, adaptation and social awareness.

These awards are an opportunity for you to showcase the excellent work you're doing, wherever you are and whichever industry sector you operate in. By submitting your leading examples of good asset management practice, it's a chance for you to celebrate your successes and share them with a wider network across the professional landscape.

We can't wait to see your submissions, and to be able to share and celebrate the work you've been doing!

The awards are open to entries from individuals or organizations involved in the profession of asset management, at any level of asset management maturity.

We accept (and encourage!) submissions from any region and in any business sector - asset management is a practice that can be applied to a huge variety of industries, and we want to see and share as many of them as possible!

Each award category has its own submission information, but all entries are subject to the following:

- Submissions must relate to activity and initiatives that have occurred in the last 12-18 months.
- Submissions should be made in English; however, if this is a serious barrier, please contact the IAM office.
- Submissions must align fully to the criteria and describe the notable achievements as well as providing the key data and physical evidence that verifies the successes described.
- You can enter as many categories as you like, but each submission must be submitted individually and contain specific information that meets the award category description.
- Submissions must be written in a maximum of 2,400 words. You can include links in the text, and have the option to upload supporting documents (PDFs, videos etc), although this is not mandatory and being for reference or context, will not be judged in its own right as a part of your submission.
