VOLUNTEER TESTIMONIAL

Krzysztof Klidzia

Asset Management Strategy Manager at Transport for London

Testimonial

Working at Transport for London (TfL) in various capacities of operations, project teams, project planning, it was on starting a role within the Asset Strategy team that I first came across the IAM and the focus on asset management best practice.

Recognising the value to be gained for our assets, and the overall benefits of best practice, it was of great interest to me to discover the IAM's holistic view of our asset management and how so many elements and influences shape our asset portfolios.

CELEBRATING OUR VOLUNTEERS

30 posts for 30 days in June

The challenges and opportunities the IAM recognise and respond to, on what organisations should consider and include in their asset management is used at TfL to help shape our asset management best practice now, and into the future, across the organisation.

I was pleased when the opportunity came to volunteer and contribute through the IAM SSG's updates, sharing information on best practice asset management, so that others may learn and implement organisational changes to grow the message on the benefits of embracing best practice.
